

PUMP SHOWN WITH WHEEL ASSEMBLY ATTACHED

PATP III Tube Pullers

Air/Hydraulic Semi-automatic Tube Pullers For Light & Medium Duty Applications.

- The Airetool Model PATP III Tube Pulling Ram develops 13-3/4 tons of pulling power.
- Easily remove tubes up to 1" O.D. from tube sheets up to 1-1/2" thickness*.
- Grippers bite uniformly into the tube I.D. as the piston retracts, pulling the tube from the sheet.
- Provides a full 4-3/4" total pulling length through a double 2-3/8" pull.
- Electric switch in the handle of the ram enables the hydraulic pump to operate the ram cylinder.
- Puller reverses instantly at the end of the pulling cycle or when the trigger is released.

* Puller capacity of the PATP Ram will vary with tube wall thickness, tube sheet thickness and tube material.

PATP III TUBE PULLING RAM

PATP-9000B HCA HOSE/
CORD ASSEMBLY

OPTIONAL PENDANT ASSEMBLY

The following components are required for most common tube pulling applications.

Ordering Number	Description
5526242	PATP III Air/Hydraulic Pump with hose assembly and Pendant
5526243	PATP III Tube Puller Ram Assembly
5524903PT	PATP HT Hose/Tube Assembly
See page 62	Gripper Kit (tube size specific)

Optional pendant for use with HDP III, HDQ III, RAV III and PATP Pumps.

Ordering Number	Description
5524904	PATP HDP Pendant Assembly
