

JSP Manual Tube Pullers

Manual tube puller provides economical method for tube removal.

- For tube removal applications ranging from 1/4" to 1-1/2" O.D.
- No external power requirement makes it ideal for field service applications.
- Manual operation with a hand wrench make the JSP easy to use.
- All components have clearly marked sizes for a quick matching of tool to job.
- Components are heat-treated high strength steel for greater durability.
